IGWA's BIENNIAL CONVENTION & EXPOSITION

Market Your Professionalism

November 8-9, 2011 • University Plaza Hotel, West Lafayette, IN

>> TUESDAY, NOVEMBER 8, 2011 / DAY 1

CEUs pending final approval

8:30 am	Registration and Continental Breakfast
9:00 am – 12:20 pm	Concurrent Session I — DNR / 2.75 ceus (<i>two 10 minute breaks included</i>) Mark Basch — Brief overview of well construction and pump installation standards/water rights provisions Jerry Unterreiner — Overview of hydrogeology of Indiana, importance of water well records, groundwater availability mapping Randy Maier — Demonstration of Indiana's water well web viewer. Concurrent Session II – Franklin Electric & The Rig Doctors / 3 ceus 9:00 – 10:00 am — Variable Frequency Drives: Overview, including theory, regulation, installation, and issues – Dave Batdorff, Franklin Electric / 1 ceu 10:15 – 12:20 am— Simple Additions that Upgrade Your Rig's Performance Fred McAninch, The Rig Doctors / 2 ceus
10:00 – 11:30 am	IGWA Board Meeting
12:15 – 2:00 pm	Lunch with featured speaker, Dave Hanson (<i>speaker from 1:15 – 2:00 pm</i>) Profit Is Not A 4-Letter Word — How to compete with your competition at a higher price and STILL get the job!
2:00 – 5:00 pm	Driller & Pump Installers review & exam Participants MUST register with the DNR at 317-232-4160 or mriggs@dnr.in.gov
2:00 – 5:20 pm	Concurrent Session I — DNR / 2 ceus (<i>two 10 minute breaks included</i>) This session will cover the new Pump Installer's license, continuing education requirements, county/city ordinances and more. PLUS, Ron Turco, Purdue University will review soil microbiology in groundwater use. Roundtables to be included — state attorney general's office will be invited to talk about enforcement — members will be requested to provide questions prior to the session. Who are the enforcers? What is the process?
2:00 – 5:20 pm	Concurrent Session II / 3 ceus Water Conditioning & Wells – Kurt Gruett and Mike Speicher, Water-Right, Inc / 1 ceu Rig Safety – Marcus Laibe, Laibe Corporation & Bob Findlay, Findlay Drilling / 1 ceu Why You Need to Call 811 to Identify Utilities? Chuck Muller, Indiana 811 / 1 ceu
6:00 – 8:00 pm	Dinner / Hospitality following
5:00 – 11:00 pm	Vendor set up

SPEAKER HIGHLIGHTS

FEATURED SPEAKER:

Dave Hanson, Design Water Technologies
Dave Hanson is the president of Design Water Technologies in Shorewood, Minnesota. He started the company in 1991 to create products for the groundwater industry that safely solved problems in wells and systems. Hanson has also taught numerous seminars on water well design, well efficiency, well rehabilitation, pumping costs, groundwater biology, well problems, and sales & marketing. He has authored several technical articles, and was one of the writers for the second edition of *Groundwater and Wells*.

Nancy Dollar, IDEM, Technical Environmental Specialist, Office of Land Quality
Nancy joined IDEM in 2000 and currently works as a Technical Environmental Specialist for the Remediation Services Branch. Nancy also worked as a site geologist and a project manager with the Indiana Brownfields Program. She is a licensed professional engineer in the state of Indiana.

Liz Melvin, IDEM, Section Chief of the Field Inspection Section in Drinking Water Branch
Liz has over 35 years of experience in public and environmental health and has been employed with IDEM since 1991.

Chuck Muller, Indiana 811, Public Awareness
Chuck coordinates educational opportunities around the central Indiana area for Indiana 811 working with organizations whose members are involved in any type of underground work.

Mike Speicher, CWS, Water-Right, Inc.
Mike is the regional sales manager for the Great Lakes region and has been involved in the water treatment industry for over 25 years.

Daniel Altepeter
Retired (One Source Equipment Co.)
Dan was an instructor for OSHA.

Speaker highlights continues on page 4.

SPEAKER HIGHLIGHTS *(continued from page 1)*

Sergeant Tony Slocum, Indiana State Police
Public Information Officer/Recruiter, Indiana State Police Peru Post

Tony is a public information officer for the Indiana State Police and has been with the department since 1999.

Dr. Ronald F. Turco, Purdue University

Dr Turco is a Professor in the Department of Agronomy, Director of the Indiana Water Resources Research Center and has recently been named Director of the Purdue Water Community. He has B.S. degrees from the University of Idaho in Bacteriology and Soil Science and a Ph. D. from Washington State University in Soil Microbiology. His research has concentrated on understanding how the behavior of environmental microorganism is influenced by human activity.

Dave Batdorff, Franklin Electric

Dave is a Field Service Engineer with a Chemist degree. He has worked at Franklin Electric as a Chemist, Product Engineer, and Field Service Engineer. His Field Service responsibilities include training, troubleshooting, and general support to distribution and water well contractors. He has 24 years experience, 13 with Franklin Electric.

Fred McAninch, The Rig Doctors

Fred & Joan have both served on the IGWA board. Fred continues to serve on the Legislative Committee as our DOT liaison and speaks to various organizations all over the US.

Marcus X Laibe, Laibe Corp.

Marcus is a 2009 graduate of Ball State University's School of Business and joined Laibe Corp. specializing in sales and marketing of The Versa-Drill Brand. He is also a third generation Laibe family member.

Bob Findlay, Findlay Drilling

Bob is a past president of IGWA and current member. His knowledge and expertise is respected world-wide. He started in the drilling business in 1948 with his father-in-law and now works with his son, Jeff. His sons Wayne, Don and Terry are also in the drilling business.

Mark Basch, IDNR, Division of Water

Mark received his Undergraduate Degree in Geology from Ball State University (1979). He then worked three years for Reynold's Supply, Inc., a well installation and service company, prior to obtaining a Master's Degree in Geology from Indiana University. Mark has been employed with the Division of Water since 1984, and currently heads up the Division's Water Rights and Use Section.

Monique Riggs, IDNR, Division of Water
Environmental Scientist

Monique received her B.S. in Environmental Science and Management from IUPUI in 1998. She is a 2006 graduate of Purdue's Natural Resources Leadership Development Institute, and holds a Graduate Certificate in Government & Non-Profit Administration (IUPUI). She has been with the Division of Water, Water Rights and Use section, since 2007.

Jerry Unterreiner, IDNR, Division of Water

Section Head of Resource Assessment

Jerry has a bachelor's degree in geology from Ball State, a master's in geology from Indiana State, and a Ph.D. in hydrogeology from Western Michigan. He has worked for an environmental consulting company, INDOT, IDEM, and is currently with IDNR.

Randy Maier, IDNR, Division of Water
Hydrogeologist

Randy's education includes a Bachelor of Science from Ball State University (1989) and a Master of Science from Indiana University (1996). Primary accomplishments include: mapping bedrock and unconsolidated aquifer resources throughout Indiana, supervising the development of the internal and online Water Well Database as well as the Water Well Web Viewer.

LICENSING OF WATER WELL PUMP INSTALLERS AND CONTINUING EDUCATION

Public Hearing Notice

Attached please find the official notice of the upcoming public hearing on the recent proposed amendments to 312 IAC 13 which governs water well drillers, provides for the licensing of water well pump installers and continuing education for pump installers and water well drillers; and assists with the implementation of P.L.84-2010, adds definitions, clarifies language and makes technical corrections.

Please share with your membership and boards as you see appropriate. Comments may also be submitted online to the Natural Resources Commission website at: <http://www.in.gov/nrc/2377.htm> Scroll down to record number eight (8) which is labeled Water Well Pump Installers Rule Amendments.

If you have any questions or concerns, feel free to contact Monique Riggs at 317-234-1085 or mriggs@dnr.in.gov. You may also contact Mark Basch at 317-232-0154 or mbasch@dnr.in.gov.

If you need a hard copy contact the IGWA office, 888-443-7330.

TITLE 312 NATURAL RESOURCES COMMISSION

Notice of Public Hearing
LSA Document #11-332

Notice of Public Hearing

Under IC 4-22-2-24, notice is hereby given that on **October 14, 2011 at 10:00 a.m.**, at the Indiana Government Center North, 100 North Senate Avenue, Room N501, Indianapolis, Indiana the Natural Resources Commission will hold a public hearing on proposed amendments to 312 IAC 13, which governs water well drillers, to provide for the licensing of water well pump installers and continuing education for pump installers and water well drillers. Assists with the implementation of P.L.84-2010. Adds definitions. Clarifies language and makes technical corrections.

IC 4-22-2-24(d)(3) Justification Statement: All requirements or costs incurred by regulated entities under the provisions of this proposed rule are necessary for the implementation of SEA 356. License fees for water well drillers and pump installers are established by statute (SEA 356) and examination fees for water well drillers are currently set by rule (312 IAC 13). Continuing education requirements and procedures for water well drillers and pump installers are established by SEA 356.

Copies of these rules are now on file at the Indiana Government Center North, 100 North Senate Avenue, Room N501 and Legislative Services Agency, Indiana Government Center North, 100 North Senate Avenue, Room N201, Indianapolis, Indiana and are open for public inspection.

MESSAGE FROM THE PRESIDENT

Dear Ground Water Professionals,

I'm writing this at 8:00 p.m. It is 55 degrees and raining and only the middle of September. I'm not looking forward to what is coming next with the weather.

I have talked with my good friends and drilling colleagues, as well as suppliers. The general consensus is that it has been a good summer. It seems that when it is hot and dry, people think more about water, which helps our businesses.

This November 8th and 9th we have a really good IGWA Biennial Convention & Exposition planned. The committee has been doing a lot of work to make it a worthwhile experience for all of us. We are hoping for an excellent turn out. Seminars and an opportunity to earn continuing education units will be available.

Be sure and come to the convention and become an active member which will make our association strong.

See you there.

NGWA WASHINGTON FLY-IN

February 27–28 • Washington, D.C.

What is a legislative fly-in?

NGWA's 15th Annual Groundwater Industry Legislative Conference, also known simply as the NGWA Washington Fly-in, puts groundwater professionals in touch with the men and women who set the nation's groundwater policy.

The first day of the conference is spent in briefings on current legislative topics, learning tips for conducting successful Hill meetings, and reviewing "leave behind" materials to share with congressional offices. On the second day, conference participants spend time visiting their representatives' offices — NGWA sets up these meetings for you — to educate policymakers about groundwater and issues important to the businesses of groundwater professionals.

The one missing piece is you...bring your knowledge of groundwater and your business to Washington and join NGWA in their efforts to educate Congress about both the resource and the industry.

Why should you attend?

Groups who are the most effective in Washington, D.C., are those who vote and spend time talking to their representatives about their industry and the role public policy can play, according to *Forbes Magazine*.

Fees

NGWA member — \$100

Nonmember — \$200

Spouse/child/full-time student,* — \$90

**Required if participating in any of the scheduled conference food events.*

Registration

Preregistration is necessary for participation in this event and must be received on or before January 27, 2012.

Ways to register:

- Register online at www.NGWA.org.
- Register by phone at 800-551-7379. Customer service hours are Monday through Friday 8 a.m.-5 p.m. ET.

Atlas Copco's got you covered—With the right rig, air, and drilling tools for the job

Atlas Copco manufactures a wide variety of water well drill rigs, including one that is just right for your fleet.

- T2W A lightweight, truck-powered water well drill designed for air/mud applications. Excellent on- and off-road mobility.
- TH60 Using a single engine to power truck and drill reduces overall weight and provides an uncongested deck.
- T3W Mid-range rig with separate truck engine, and a deck engine to power the drill.
- T4W Established, solid reputation as the water well drill rig of choice. Still the leading water well rig in its class.

CONTINUING EDUCATION for water well drillers and water well pump installers — it's the law!

As you should know by now, The Indiana General Assembly passed IC 25-39-2-15.5 regarding pump installers license for water wells and continuing education. All pump installers must be licensed and are required to earn 6 hours continuing education units every 2 years. This will be in effect July 1, 2011. There is a grandfather clause for experienced installers until July 1, 2011.

Please check the *Frequently Asked Questions* on the IGWA website for more info. The continuing education offered at the Convention will apply to the credit you will need by December 31, 2012.
